Opal-Essence Facial

Luxurious Pearl, Caviar and Magnolia
Regenerating Facial

Dr. Roland Sacher, a renowned European biochemist, developed the PCM (Pearl, Caviar, Magnolia) complex used in this treatment. The combination of these highest-quality ingredients assists in slowing the aging process and regenerating the deepest layers of your skin. Elasticity will dramatically increase, and an immediate improvement in the appearance and feel of your skin will be evident. By customizing this treatment to your specific skin type, we can harness your body's power to heal your skin from within. In this treatment we address the face, neck and décolleté. A foot and hand reflexology treatment is also included.
